fortgriffinsud.net

**WELCOME TO THE FORT GRIFFIN SPECIAL UTILITY DISTRICT!**

The goal of FGSUD Board of Directors and Staff is to provide quality potable water to our customers. We continually work to operate and maintain the District as efficiently as possible, and our desire is to provide water service to our rural residents.

Attached are the required forms for service with the District. Required forms and fees will vary dependent upon if you are requesting a new water tap or if it is a transfer of existing service.

ALL CUSTOMERS will need to complete Pages 2 & 3, and sign Page 6.

The draft authorization form is not required but recommended for all customers as a convenient bill pay option (page 7).

All customers requesting services will need to submit the Right of Way Easement Form (pages 9 & 10).

Customers requesting an existing service be transferred will need to have the previous owner complete the Transfer Authorization Form (page 8).

Feel free to only print the forms that apply and email, fax, mail or hand deliver to the District. Necessary fees will be required before application process will begin. If you have any questions, please feel free to call FGSUD at (325)762-2575.

Thanks!

*Carrie Hobson*

Office Administrator

## Water Service Application

*Applications must be thoroughly completed. Please print legibly in ink or type.  
A map of (or detailed directions to) the service location requested must be provided.*

WATER SERVICE AGREEMENT  
Cross-connection Restrictions & Enforcement  
30 TAC Chapter 290.47(b), Appendix B

1. **PURPOSE:** The Fort Griffin Special Utility District is responsible for protecting the drinking water supply from contamination or pollution which could result from improper private water distribution system construction or configuration. The purpose of this service agreement is to notify each customer of the restrictions that are in place to provide this protection. The utility enforces these restrictions to ensure the public health and welfare. Each customer must sign this agreement before the Fort Griffin Special Utility District will begin service. In addition, when service to an existing connection has been suspended or terminated, the water system will not re-establish service unless it has a signed copy of this agreement.
  
2. **RESTRICTIONS:** The following unacceptable practices are prohibited by State regulations:
  - A. No direct connection between the public drinking water supply and a potential source of contamination is permitted. Potential sources of contamination shall be isolated from the public water system by an air-gap or an appropriate backflow prevention device.
  - B. No cross-connection between the public drinking water supply and a private water system is permitted. These potential threats to the public drinking water supply shall be eliminated at the service connection by the installation of an air-gap or a reduced pressure-zone backflow prevention device.
  - C. No connection which allows water to be returned to the public drinking water supply is permitted.
  - D. No pipe or pipe fitting which contains more than 8.0% lead may be used for the installation or repair or plumbing at any connection which provides water for human use.
  - E. No solder or flux which contains more than 0.2% lead can be used for the installation or repair of plumbing at any connection which provides water for human use.
  
3. **SERVICE AGREEMENT**

Following are the terms of the service agreement between the Fort Griffin Special Utility District (the Water System) and \_\_\_\_\_ (the Customer).

  - A. The Water System will maintain a copy of this agreement as long as the Customer and/or the premises is connected to the Water System.
  - B. The Customer shall allow his property to be inspected for possible cross-connection and other potential contamination hazards. These inspections shall be conducted by the Water System or its designated agent prior to initiating new water service; when there is reason to believe that cross-connections or other potential contamination hazards exist; or after any major changes to the private water distribution facilities. The inspections shall be conducted during the Water System's normal business hours.
  - C. The Water System shall notify the Customer in writing of any cross-connections or other potential contamination hazard which has been identified during the initial inspection or the periodic re-inspection.
  - D. The customer shall immediately remove or adequately isolate any potential cross-connection or other potential contamination hazards on his premises.
  - E. The Customer shall, at his expense, properly install, test, and maintain any backflow prevention device required by the Water System. Copies of all testing and maintenance records shall be provided to the Water System.
  
4. **ENFORCEMENT**

If the Customer fails to comply with the terms of the Service agreement, the Water System shall, at its option, terminate service or properly install, test, and maintain an appropriate backflow prevention device at the service connection. Any expenses associated with the enforcement of this agreement shall be billed to the Customer.

# OPERATING PROCEDURES

AMENDED – November 4, 2021  
In accordance with TRWA guidelines

All Fort Griffin Special Utility District installations and operations are in accordance with American Water Works Association (AWWA) specifications and in compliance with the Texas Commission on Environmental Quality (TCEQ) and the Texas Rural Water Association (TRWA).

1. **Only one dwelling unit may be connected to a single water meter.** This does not preclude watering livestock and other normal household and farm use. It does exclude mobile homes or RV/travel trailers parked adjacent to the metered dwelling unit. It also excludes providing water to other individuals, families, or groups.
2. **Law prohibits any customer of this District reselling water.** This includes selling to drilling organizations, other dwellings, trailer/RV/travel trailer occupants, or any other person or business. Any individual that is found selling water, or who is providing water for another household, will have their service terminated and no longer receive water from this District.
3. **The District will sell water for a drilling operation** for a minimum of \$1,000 per well, plus the cost of connection in addition to \$0.50 per permit foot. This will cover up to 100,000 gallons of water. Water usage over the 100,000 provision will cost the normal water rate in effect at the time of usage. Initial payment will be made prior to start of drilling.
4. **Mobile home parks** are required to have a meter for each permanently installed mobile home.
5. **RV/travel trailer parks** are required to pay one Capital Contribution Fee (\$2,000) and one deposit (\$300) for every eight (8) parking spaces and a monthly minimum per those three spaces, though the park may have only one *physical* meter. RV/travel trailer parking is temporary lodging by definition. While an RV/travel trailer may be parked in a specific park year round, it must not be lived in year round or it will be classified as a mobile home and subject to those requirements.
6. **Apartment complexes and hotels/motels** may have one *physical* meter; however, the District requires payment of one Capital Contribution Fee (\$2,000) and one deposit (\$300) for every two apartments. The District requires the hotel/motel to pay one Capital Contribution Fee (\$2,000) and one deposit (\$300) for every three rooms.
7. **Requests for new tap service** require the completion of a Water Service Application package with a \$2,300 fee - \$300 for refundable deposit and a \$2,000 Capital Contribution Fee. Meter will be set in order of completed and paid application packages received, based upon approval by the engineering firm. Depending upon the engineering feasibility study results, installation will be within approximately two – four weeks, or the applicant may be placed on a waiting list. Applicants are required to pay all costs of the installation as well as all system costs to provide adequate water quantity and pressure for the new installation.

## **Forms required for new service:**

1. Water Service Application
  2. Water Service Agreement
  3. Right-of-Way Easement
  4. Signed copy of FGSUD Operating Procedures
- a. The District will notify the applicant of receipt of payment and explain the remainder of the process.
  - b. The engineer will assess the location of proposed service and determine the impact to the immediate area and overall water system.
  - c. If approved for installation, the District will provide the applicant with a written estimate of the cost of installation. Upon receipt of the estimate, the applicant will notify the District whether to proceed with installation, place him/her on the waiting list, or cancel the application. Upon cancellation, the original

deposit and the Capital Contribution Fee shall be refunded. The feasibility fee is non-refundable (and may be taken from deposit amount).

- d. Upon notification to proceed, the District will install the meter/service, generally within two weeks. Upon installation of meter the Capital Contribution Fee becomes non-refundable.

8. **Cross connections** constitute a significant health threat to the overall water system and are prohibited by the TCEQ. An air gap, equal to at least two times the diameter of the pipe used, is required between the District's water system and any other water source. This prevents having a backflow into the treated water system and eliminates the potential health hazard produced from back flows. The District is required by the TCEQ to inspect for cross connections on a regular basis. The customer will be notified in writing (and verbally when possible) when a cross connection is found, and will have ten days from the date of the letter to correct the problem. If the cross connection is not repaired at that time the District is then required to disconnect water service until the repair is made.

9. **Requests for transfer of service** require the completion of a Water Service Transfer form and Water Service Application, along with a deposit fee of \$300 for the new customer. All bills/fees/monies owed to FGSUD by the transferring customer must be paid in full prior to any transfer. Once the Transfer and Application packets are completed as required, the transferring customer will be refunded his/her original deposit fee.

**Forms required for transfer of service:**

- a. Water Service Transfer Authorization (to be completed by transferring customer)
- b. Water Service Application (to be completed by new customer)
- c. Water Service Agreement (to be completed by new customer)
- d. Signed copy of FGSUD Operating Procedures (to be completed by new customer)

10. **Water Rates:** The current basic monthly minimum charge is \$59.85.

1 – 2,000 gallons @	11.00 / 1,000 gallons
2,001 – 10,000 gallons @	14.25 / 1,000 gallons
10,001 – 50,000 gallons @	17.50 / 1,000 gallons
50,001 + gallons @	20.00 / 1,000 gallons

11. **Debt Service Fee:** A Debt Service Fee in the amount of \$46.67 is included on each customer's water bill. This fee is to assist in the repayment of loans, funded by the USDA Rural Development, for expansion and upgrades to the system, additional pump stations and appurtenances, as well as 35% of the construction cost of the new water treatment plant in the City of Albany (the district's water source).

12. **Meter Reading and Billing Cycle:** Meters will be read between the 16<sup>th</sup> and 20<sup>th</sup> of the month by FGSUD personnel, and bills will be mailed by the 26<sup>th</sup> day. All accounts are due by the 10<sup>th</sup> of the following month.

If payment is not received by 4:00 p.m. on the due date, a late notice will be sent to the customer stating that full payment, including the past due amount plus the \$5 late fee, must be paid within ten (10) days or the meter will be locked. If the meter is locked, the customer must contact office during regular business hours and full payment of the account plus the \$40 reconnect fee must be paid within 10 days or the meter will be removed and service will be terminated. To restore service, the customer must re-apply for new service and pay the necessary fee(s) according to the District Service Policy.

13. **Returned Check:** When payment is made and the check is returned by the bank for insufficient funds, a service fee of \$25 will be charged to the customer. The customer must then make payment within ten (10) days of notification by the District. Payment will include the amount due plus the \$20 service fee and must be paid by cashier's check or money order.

14. **Disputed bill:** Questionable bills will be coordinated by the FGSUD Office Administrator or if necessary, the General Manager. If no resolution is reached, the customer may write a letter to the Board of Directors. Meter testing for accuracy of operation will be performed upon customer request. If bill adjustment is required, the

adjustment will be for a period of not more than six (6) months prior. All water passing through a meter will be billed to the customer regardless of leaks, theft, absence, etc.

**15. Locking or Removal of Meter:** Meters are the property of FGSUD. It is unlawful to tamper with the District's meter or equipment or bypassing the same. Service will be terminated if this occurs. The following is a list of possible reasons for meter locking or removal, non-limiting:

1. Customer request
2. Delinquent bill
3. Public health hazard
4. Multiple residences using service
5. Service agreement violations
6. Meter tampering
7. Violation of any federal, state, local or other agency having jurisdiction
8. Willful destruction of FGSUD property
9. Less than reasonable use of the service that causes inadequate service to other customers

**16. Customer's Responsibility:** The customer shall be responsible for compliance with all utility, local, and state codes, requirements and regulations concerning on-site service and plumbing facilities.

*I have read, understand, and agree to the above FGSUD Water Service Agreement Regarding Cross-connection Restrictions & Enforcement; and the FGSUD Operating Procedures.*

RIGHT OF WAY EASEMENT  
(General Type Easement)

KNOW ALL MEN BY THESE PRESENTS, that \_\_\_\_\_,  
(hereinafter called "Grantors") in consideration of one dollar (\$1.00) and other good and valuable consideration paid by Fort Griffin Special Utility District, 1180 C.R. 109, Albany, Texas 76430, (hereinafter called "Grantee") the receipt and sufficiency of which is hereby acknowledged, does hereby grant, bargain, sell, transfer, and convey to said Grantee, its successors, and assigns, a perpetual easement with the right to erect, construct, install, and lay and thereafter use, operate, inspect, repair, maintain, replace, and remove water pipeline supply system including one or more pipelines over and across \_\_\_\_\_ acres of land, more particularly described in instrument recorded in Vol. \_\_\_\_\_, Page \_\_\_\_\_, Deed Records, \_\_\_\_\_ County, Texas, together with the right of ingress and egress over Grantors' adjacent lands for the purpose for which the above mentioned rights are granted. The easement hereby granted shall not exceed 20' in width, and Grantee is hereby authorized to designate the course of the easement herein conveyed except that when the pipeline(s) is installed, the easement herein granted shall be limited to a strip of land 20' in width, the center line thereof being the pipeline as installed.

Grantee shall have such other rights and benefits necessary and/or convenient for the full enjoyment and use of the rights herein granted, including without limitation, (1) the reasonable right of ingress and egress over and across lands owned by Grantor which are contiguous to the easement, (2) the reasonable right from time to time to remove any and all paving, undergrowth and other obstructions that may injure Grantee's facilities and appurtenances or interfere with the construction, maintenance, inspection, operation, protection, repair, alteration, testing, replacement, upgrading, relocation (as above limited), substitution or removal thereof, and (3) the rights to abandon-in-place any and all water supply and/or sewer distribution lines, service lines and associated appurtenances, such that Grantee shall have no obligation or liability to Grantor, or their successors or assigns, to move or remove any such abandoned lines or appurtenances.

In the event the easement hereby granted abuts on a public road and the county or state hereafter widens or relocates the public road so as to require the relocation of this water and/or sewer line as installed, Grantor further grants to Grantee an additional easement over and across the land described above for the purpose of laterally relocating said water and/or sewer line as may be necessary to clear the road improvements, which easement hereby granted shall be limited to a strip of land 20' in width, the center line thereof being the pipeline as relocated.

The consideration recited herein shall constitute payment in full for all damages sustained by Grantors by reason of the installation of the structures referred to herein and the Grantee will maintain such easement in a state of good repair and efficiency so that no unreasonable damages will result from its use to Grantors' premises. This Agreement together with other provisions of this grant shall constitute a covenant running with the land for the benefit of the Grantee, its successors and assigns. The Grantors covenant that they are the owners of the above described lands and that said lands are free and clear of all encumbrances and liens except the following: \_\_\_\_\_

\_\_\_\_\_  
\_\_\_\_\_  
\_\_\_\_\_

Grantor does hereby bind itself, its successors and assigns, to WARRANT AND FOREVER DEFEND, all and singular, the easement herein granted to Grantee, or Grantor's successors and assigns, against every person whomsoever claiming, or to claim, the same or any part thereof.

The easement conveyed herein was obtained or improved through Federal financial assistance. This easement is subject to the provisions of Title VI of the Civil Rights Act of 1964 and the regulations issued pursuant thereto for so long as the easement continues to be used for the same or similar purpose for which financial assistance was extended or for so long as the Grantee owns it, whichever is longer.

**IN WITNESS WHEREOF** the said Grantors have executed this instrument this  
the \_\_\_\_\_ day of \_\_\_\_\_, \_\_\_\_\_.

\_\_\_\_\_  
  
\_\_\_\_\_

ACKNOWLEDGMENT

## **FORT GRIFFIN SPECIAL UTILITY DISTRICT**

### **Solid Waste Disposal Service Policy**

Approved February ~~11~~ 2026

#### **Policy Overview**

Fort Griffin Special Utility District (“FGSUD”) has contracted with an exclusive vendor to provide solid waste disposal services to FGSUD water customers.

The Board of Directors of FGSUD is adopting this Solid Waste Disposal Service Policy (the “Policy”) to provide the terms, conditions, obligations, and requirements relating to FGSUD’s provision of solid waste disposal services.

#### **Request for Service**

Requests for new solid waste disposal service require the completion of a Solid Waste Disposal Service Application and payment of any applicable fees. Delivery of the solid waste disposal carton or container will be completed within two (2) weeks of the requested start date of solid waste disposal service.

#### **Exclusivity of Service**

Current water service customers of FGSUD who desire to begin solid waste disposal service at the property where their water service connection is located are required to obtain solid waste disposal service solely from FGSUD. FGSUD will coordinate with existing customers to start solid waste disposal services.

Current water service customers of FGSUD who are currently under contract with another waste management company to provide solid waste disposal services may allow their current contract to terminate in accordance with state law requirements. Once the current contract expires, the customer must commence solid waste disposal service with FGSUD if they wish to continue receiving solid waste disposal service at their property. To commence solid waste disposal service with FGSUD, the customer shall complete a Solid Waste Disposal Service Application.

New water service customers of FGSUD who desire to have solid waste disposal service at the property where their water service connection will be located are required to obtain solid waste disposal service solely from FGSUD. If the new water service customer is currently under contract with another waste management company, once that contract expires, the water service customer must commence solid waste disposal service with FGSUD if they wish to continue receiving solid waste disposal service at their property following the expiration of their existing contract. To commence solid waste disposal service with FGSUD, the new customer shall complete a Solid Waste Disposal Service Application.

**Billing Cycle**

All bills for solid waste disposal service will be included on the customer’s bill for water service. Failure to pay a solid waste disposal service bill, including the late fee, will result in the the solid waste disposal cart(s) or container(s) being removed by FGSUD. The customer must contact the FGSUD office during regular business hours and full payment of the account must be paid within ten (10) days or solid waste disposal service will be terminated, and to restore service, the customer must re-apply for new service in accordance with the Policy.

**Rates**

96-gallon poly cart- \$27.65 per month	Gate Fee/Lock Fee- \$10.00
Additional 96-gallon poly cart- \$22.65 per month (for each additional cart)	1.5-yard metal container- \$55.65 per month
3 + 96-gallon poly cart- \$17.65 per month (for each additional cart)	2-yard metal container- \$69.65 per month
	3-yard metal container- \$90.65 per month
	4-yard metal container- \$111.65 per month

Roll-Offs: FGSUD water service customers may contact Taylor County Waste Service, LLC (d/b/a County Waste Service) to coordinate roll-offs and receive a 15% discount.

**Rate Adjustments**

The Rates detailed in this Policy may be subject to rate increases in proportion to increases imposed by FGSUD’s waste management provider in accordance with the solid waste disposal contract.

FGSUD shall provide notice on its website of an increase in solid waste disposal rates no later than thirty (30) days before such increase is implemented.

**Enforcement**

If the customer fails to comply with the terms of this Policy, FGSUD, shall, at its option, terminate service. Any expenses associated with the enforcement of this Policy shall be billed to the customer. FGSUD may restore service to the customer at its own discretion following a request from the customer for restoration of service. To restore service, the customer must re-apply for new service and pay any necessary fee(s) according to the Policy.

This Policy is, as all policies adopted by FGSUD, recognized by the courts as if it was a penal ordinance of a city.

**Terms and Conditions**

Completion of a Solid Waste Disposal Service Application and payment of any applicable fees constitutes agreement to the terms and conditions stated in this Policy.

**Effective Date**

This Policy is effective upon adoption by the FGSUD Board of Directors.

APPROVED AND ADOPTED on this 14<sup>th</sup> day of February 2026.
